NOTES

INTRODUCTORY NOTES

This publication presents the latest available statistics at the time of preparation. The data presented are derived from a number of statistical sources which are updated at differing periods of regularity. Hence, the time period or date of the latest available data will differ between individual statistical series.

The statistical local areas (SLAs) presented generally correspond to legal local government areas (LGAs) in non-urban areas, and to suburbs in major urban areas.

SLAs are the smallest type of spatial unit of the Australian Standard Geographical Classification (ASGC) shown in this publication. Where applicable they have been aggregated to LGAs, which have in turn been aggregated to statistical divisions.

STATISTICAL DIVISIONS

For the purpose of presenting the principal series of official statistics for the State, Queensland is divided into a number of geographical areas. These areas consist, for the most part, of aggregations of local government areas.

The primary division of the State is into 11 Statistical Divisions. These are intended to represent as far as possible 'regions' of the State which are characterised by discernible social and/or economic links between the inhabitants and economic units within them, under the unifying influence of one or more major cities or towns. The boundaries of the divisions have accordingly been delineated on the basic criterion that the degree of economic and/or social content and interaction within each division should be maximised. It should be emphasised that the boundaries of the divisions cannot be regarded as sharp lines of demarcation — they may, of necessity, be positioned within peripheral zones in which the influence of two or more 'focal' cities or towns overlap in varying degrees.

(b) Including 259 in offshore areas and migratory.

(e) Including 94 overseas usual residents and 13 with no fixed place of abode.

(c) Including offshore areas and migratory.

Brisbane Statistical Division

BRISBANE STATISTICAL DIVISION

Brisbane Statistical Division surrounds Moreton Bay and extends from Caboolture in the north to Ipswich in the west and Ormeau in the south. The Division accounted for only 0.3% of Queensland's total area but 45.4% of the estimated resident population at 30 June 1995.

Brisbane is the financial and administrative centre for Queensland. Brisbane also includes large retail and wholesale trade industries, hospitality and manufacturing industries.

Although Brisbane Statistical Division contributed only 4.1% of the gross value of agricultural commodities produced in Queensland in 1994-95, the region was Queensland's largest producer of spring onions and shallots, parsley, strawberries and pineapples. Also, Brisbane Statistical Division accounted for 58.1% of the number of meat chickens held in Queensland.

Moreton Statistical Division

MORETON STATISTICAL DIVISION

Moreton Statistical Division surrounds the Brisbane Statistical Division and takes in the Gold Coast and Sunshine Coast. The Moreton Statistical Division accounted for 1.0% of Queensland's total area but 17.8% of the estimated resident population at 30 June 1995.

The Gold Coast region, in the Moreton Statistical Division, is based on the hospitality and retail trade industries and has significant property and business services industries. The Sunshine Coast region also has a significant hospitality industry.

In 1994-95, Moreton Statistical Division accounted for approximately 14.7% of Queensland's agricultural establishments and contributed 10.2% of the gross value of agricultural commodities produced in Queensland. The region was Queensland's largest producer of a wide range of agricultural produce, including potatoes, beetroot, cabbages, carrots, lettuces, mushrooms, white and brown onions, green peas, pumpkins, avocados and kiwifruit. Moreton Statistical Division had the largest area of vegetables, nurseries, flowers and cultivated turf in Queensland. The Division also had the largest number of dairy cattle in Queensland.

Wide Bay–Burnett Statistical Division

WIDE BAY-BURNETT STATISTICAL DIVISION

The Wide Bay-Burnett Statistical Division covers 52,392 square kilometres, 3.0% of the total area of Queensland. The Division had an estimated resident population of 222,521 persons at 30 June 1995 which represented 6.8% of the total Queensland population. While Wide Bay-Burnett Statistical Division is centred on Bundaberg, approximately 368 kilometres north of Brisbane, the next most significant population centres are Hervey Bay, Maryborough, Gympie and Kingaroy.

Key industries in the region include agriculture, forestry, fishing and retail trade. There is a diversity of agricultural activities in the area. In 1994-95, crops and pastures contributed 58.0% of the gross value of agricultural commodities produced in the region. Sugar cane is the major crop, while the region was the largest producer of peanuts in Queensland. Wide Bay-Burnett Statistical Division was also the largest producer of a wide range of vegetables, as well as having the largest number of citrus fruit trees growing in Queensland. Tourism, particularly in Hervey Bay and on Fraser Island, is also a significant activity.

Darling Downs Statistical Division

DARLING DOWNS STATISTICAL DIVISION

The Darling Downs Statistical Division is to the west of Moreton Statistical Division, north of the New South Wales border. This Division covers 90,245 square kilometres of Queensland, representing 5.2% of the State. The Statistical Division had an estimated resident population of 205,400 persons at 30 June 1995, or 6.3% of the State population.

The Condamine River and its tributaries flow through this rich pastoral and agricultural region which is bounded in the north-east by the Great Dividing Range. Toowoomba City is on the eastern fringe of the Darling Downs Statistical Division and is the hub of commercial and industrial activity and the regional centre for higher education. Other major population centres in this Division are Warwick, Dalby, Stanthorpe and Chinchilla.

Agriculture is a key industry in the region, accounting for 22.4% of agricultural establishments in Queensland in 1994-95. The region was Queensland's largest producer of wheat, oats, barley, grain sorghum, maize, millet and panicum, triticale, cotton, asparagus, broccoli, cauliflower, apples, pears, stone fruit and grapes. The value of livestock slaughterings in the region over the same period was the highest in the State.

South-West Statistical Division

SOUTH-WEST STATISTICAL DIVISION

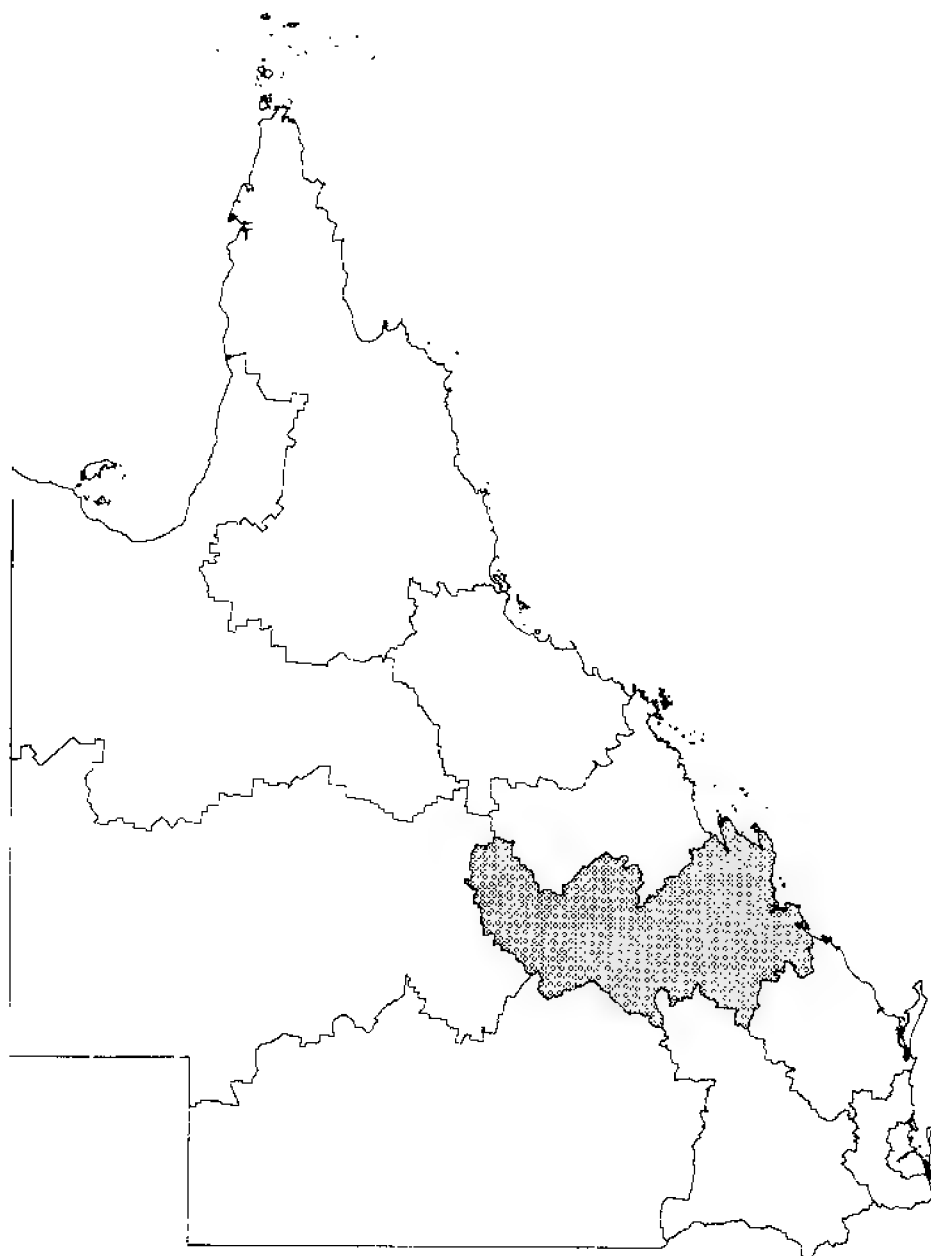

The South-West Statistical Division covers 322,936 square kilometres, 18.6% of Queensland's total area. This Division had an estimated resident population at 30 June 1995 of 28,369 persons or just 0.9% of the State's total population. The Division is situated on the South Australian and New South Wales border with the western part being desert receiving less than 150 millimetres of rain per annum. The main population centres are Roma, Charleville, St George and Cunnamulla.

Key activities in the region include wool growing and meat cattle grazing as well as cotton and grain growing. The region recorded the highest number of sales of sheep and lambs in Queensland in 1994-95. Oil and gas production contributes significantly to the region while opal mining is also an important activity in the west of the Division.

Fitzroy Statistical Division

The Fitzroy Statistical Division covers 123,654 square kilometres (7.1% of Queensland's total area), with an estimated resident population of 181,925 persons at 30 June 1995, representing 5.6% of the Queensland population. The region is bordered to the east by the Great Barrier Reef and offshore islands and to the west by the Carnarvon Ranges.

Rockhampton is the main city in this Division and lies on the Tropic of Capricorn and the Fitzroy River. Other significant centres of population are Gladstone, Blackwater, Emerald and Biloela. Gladstone is one of Queensland's major ports. In addition to being one of the world's largest coal ports, the port also handles significant amounts of bauxite, caustic soda, cement clinker, petroleum products and aluminium.

Key industries of the Fitzroy Statistical Division include mining, manufacturing, tourism, retail trade and agriculture. In 1994-95, livestock slaughterings and livestock products accounted for 59.6% of the gross value of agricultural commodities produced in the region. Fitzroy Statistical Division had the highest number of meat cattle in Queensland. The region also had the largest planting and production of safflower and sunflower in Queensland in 1994-95.

Central-West Statistical Division

CENTRAL-WEST STATISTICAL DIVISION

The Central-West Statistical Division covers 371,064 square kilometres (21.4% of Queensland's total area). The Division is Queensland's least populated and had an estimated resident population of 12,945 persons at 30 June 1995, representing only 0.4% of Queensland's population. The largest population centre in the area is Longreach, approximately 700 kilometres west of Rockhampton. Blackall, Barcaldine and Winton are other major population centres in the region.

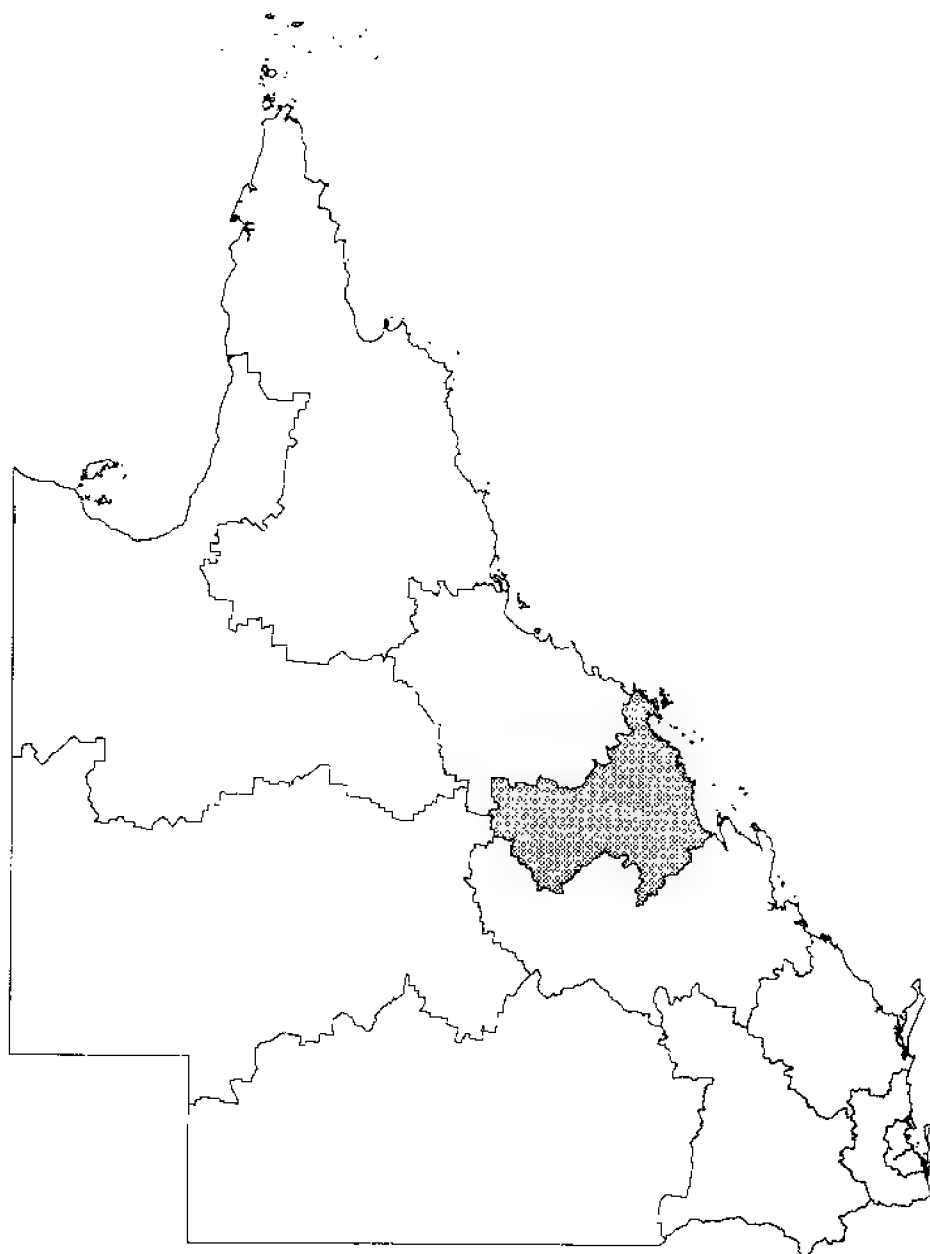

In 1994-95, the Central-West Statistical Division had the largest area of agricultural holdings in Queensland. The key industry was wool growing, with the region recording the highest number of both sheep and lambs.

Mackay Statistical Division

MACKAY STATISTICAL DIVISION

Mackay Statistical Division covers 69,011 square kilometres (4.0% of total Queensland). The Division had an estimated resident population of 118,733 persons at 30 June 1995, or 3.6% of the Queensland population. The region is bordered to the east by the Great Barrier Reef and offshore islands. The main population centre of the area is Mackay. Other major population centres are Moranbah, Dysart, Sarina, Proserpine and Clermont.

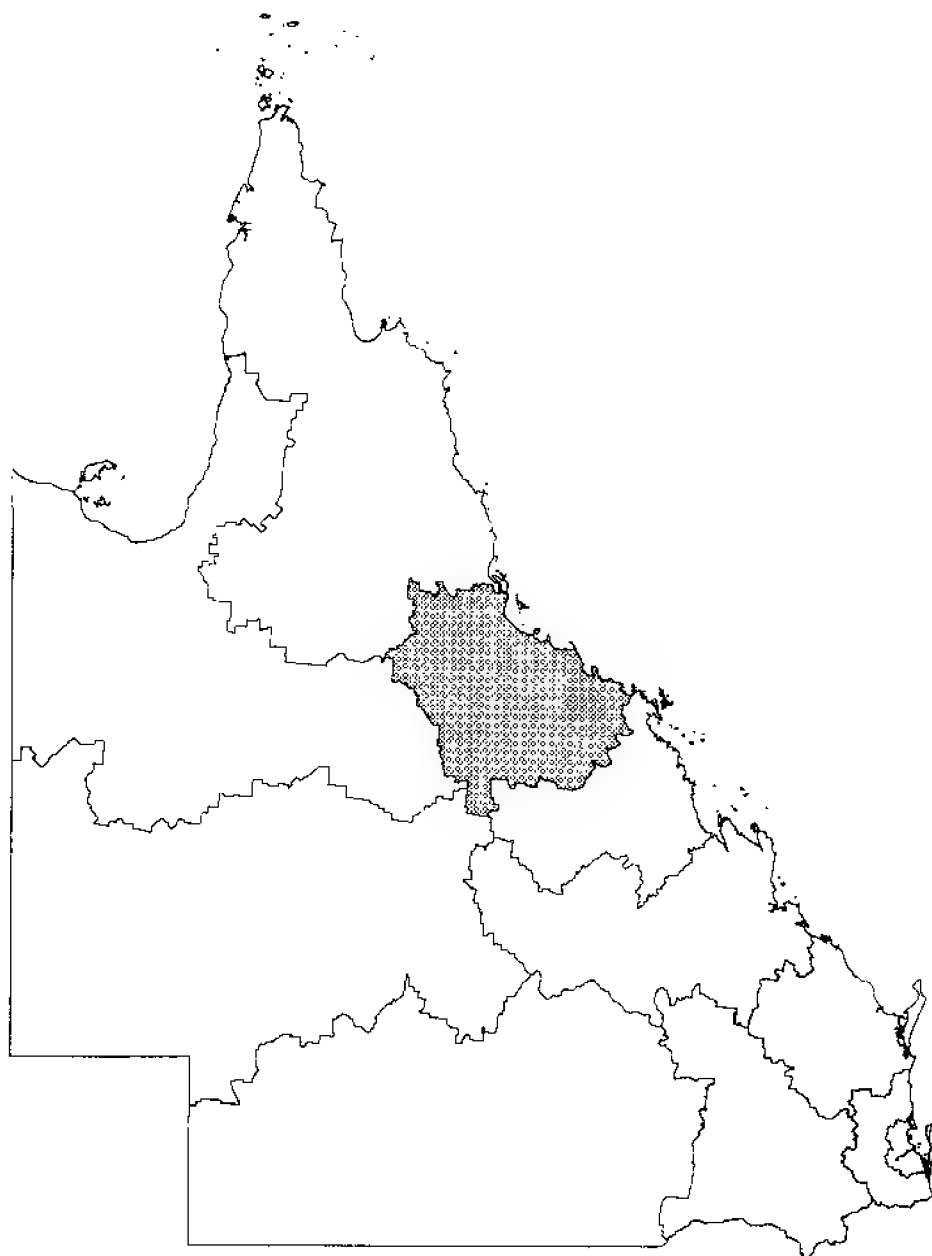

The main economic bases of this Division are sugar cane growing and processing, coal mining, cattle grazing and hospitality. The Mackay Port Authority handles the export of sugar and grain while the port of Hay Point handles much of Queensland's coal exports and is the world's second largest coal export port.

Northern Statistical Division

The Northern Statistical Division covers 101,306 square kilometres (5.8% of total Queensland) and had an estimated resident population of 195,314 at 30 June 1995 (6.0% of Queensland's total population). The Northern Statistical Division is bordered to the east by the Great Barrier Reef and to the west by the Great Dividing Range. The population is centred in Townsville, the hub of commercial and industrial activity in the Division. Townsville is also the regional centre of government administration and higher education and is also important for its port trade. Other significant population centres in the Division are Charters Towers, Ayr, Bowen and Ingham.

Key industries in the region are retail trade, manufacturing, finance and insurance and property and business services. In 1994-95, the Northern Statistical Division had the highest proportion (17.6%) of the State's gross value of commodities produced for crops and was Queensland's largest producer of sugar cane cut for crushing. The region was also the largest producer of a number of vegetables and fruits, including cucumbers, sweet corn, tomatoes and mangoes.

Far North Statistical Division

FAR NORTH STATISTICAL DIVISION

The Far North Statistical Division covers 267,645 square kilometres, 15.4% of Queensland's total area. The Division had an estimated resident population at 30 June 1995 of 200,920 persons which was 6.1% of the State's population. The Division is bounded to the east by the Great Barrier Reef and partially to the west by the Gulf of Carpentaria, and it extends to Thursday Island in the north.

Cairns is the largest population centre in the area and is also the focus for much of the hospitality industry activity in the area. The other major population centres include Mareeba, Innisfail, Atherton, Port Douglas and Gordonvale.

The region has a wide variety of industries associated with it, dominated by the hospitality industry. Other significant industries include mining and agriculture with the region being the largest fruit growing area in Queensland. The Far North Statistical Division accounted for 94.5% of Queensland's production of bananas and 47.6% of Queensland's production of papaws in 1994-95. Overall, the region accounted for 11.9% of the total gross value of agricultural commodities produced in Queensland.

North-West Statistical Division

NORTH-WEST STATISTICAL DIVISION

The North-West Statistical Division covers 312,155 square kilometres, 18.0% of total Queensland. The Division had an estimated resident population at 30 June 1995 of 37,698 persons which was 1.2% of the State's population. The Division is bounded by the Northern Territory in the west and the Gulf of Carpentaria to the north. The major population centre is Mt Isa which is home to 63.7% of the Division's population. Other significant population centres are Cloncurry, Hughenden and Normanton.

The key industries in the region are mining, beef cattle grazing and wool growing.

(a) ASGC boundary changes occurred during 1995-96.

Explanatory Notes

DEFINITIONS

- 1** *Legal local government areas* (LGAs), are spatial units which represent the geographical areas of incorporated local government councils, such as cities (C), towns (T) and shires (S).
- 2** *Statistical divisions*, which are groupings of whole or partial LGAs, are designed to be relatively homogeneous regions characterised by identifiable social and economic units within the region.
- 3** *Statistical districts* have been defined around selected urban areas to provide comparable statistics over a period of time. These districts, which are intended to contain the anticipated urban spread for at least 20 years, are generally defined as having a population of 25,000 or more and experiencing urban growth beyond the LGA boundaries.
- 4** Data for some series shown in Tables 1 through 12 which are available for statistical districts are shown on pages 100 and 101.
- 5** *Statistical local areas* are the smallest types of spatial units in the Australian Standard Geographical Classification (ASGC) for which data are shown in this publication. In general, they correspond to LGAs in non-urban areas or suburbs in major urban areas.
- 6** The area in square kilometres of statistical areas is derived from digitised statistical boundaries.
- 7** Data in this publication relate to the period 1991 to 1995-96, over which time there have been four versions of ASGC used. Each data set is presented according to the ASGC version current at the time of collection.
ASGC Edition 2.1 applies to Retail.
ASGC Edition 2.4 applies to Manufacturing and Local government
ASGC Edition 2.5 applies to Estimated resident population, Births, Deaths, Building, Business locations, Agriculture, Schools, Tourist accommodation and Vehicles on register.

(a) Population changes estimated at 30 June prior to the year of effect. (b) Year ended 30 June. (c) Less than 0.1 square kilometres

8 Estimated resident populations shown are based on the 1991 Census of Population and Housing counts adjusted for under-enumeration, as measured by a post-enumeration survey, plus the estimated number of residents temporarily overseas.

9 Dwelling counts for the 1991 Census of Population and Housing include occupied private dwellings (including caravans in caravan parks), non-private dwellings (hotels, hospitals, etc.) and unoccupied dwellings.

10 Figures shown for births and deaths relate to the resident population of the area for which they are shown.

11 Business locations data classified according to Australian and New Zealand Standard Industrial Classification (ANZSIC).

12 Statistics of building work approved are compiled from: (a) permits issued by local government authorities in areas subject to building control by the relevant authorities and (b) contracts let or day labour work authorised by

Commonwealth, State, semi-government and local government authorities. Major building activity which takes place in areas not subject to the normal administrative approval processes (e.g. mining leases) is also included. The number of dwelling units created by alterations and additions to existing buildings, i.e. buildings other than dwellings, is not included.

13 Location. A location is a physical unit of an establishment, usually of an unbroken physical area or site.

14 Data for motor vehicles on register were provided by Queensland Department of Transport.

15 Motor vehicles data excludes Commonwealth Government vehicles.

16 Where figures have been rounded, discrepancies may occur between totals and sums of the component items

17 Australian Standard Geographical Classification spatial unit changes between ASGC editions 2.4 and 2.5, effective from 1 July 1995, are as follows:

ASGC EDITION 2.4 SPATIAL UNITS

ASGC EDITION 2.5 SPATIAL UNITS
